This International Search Report consists of a total of sheets. X It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international applications applications of the international applications.	
It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international applications and the language in which it was filed, unless otherwise indicated under this item.	ne applicant
 With regard to the language, the international search was carried out on the basis of the international applications language in which it was filed, unless otherwise indicated under this item. 	
language in which it was filed, unless otherwise indicated under this item.	
the international search was carried out on the basis of a translation of the international continue to	ation in the
Authority (Rule 23.1(b)).	urnished to this
b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the in was carried out on the basis of the sequence listing:	nternational search
contained in the international application in written form. filed together with the international application in computer readable form.	
furnished subsequently to this Authority in written form.	
furnished subsequently to this Authority in computer readble form.	
the statement that the subsequently furnished written sequence listing does not go beyond the disclo international application as filed has been furnished.	sure in the
the statement that the information recorded in computer readable form is identical to the written sequent furnished	ience listing has been
2. Certain claims were found unsearchable (See Box I).	
3. Unity of invention is lacking (see Box II).	
4. With regard to the title.	
X the text is approved as submitted by the applicant.	
the text has been established by this Authority to read as follows:	
. 5. With regard to the abstract,	
X the text is approved as submitted by the applicant.	
the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The within one month from the date of mailing of this international search report, submit comments to this	e applicant may, Authority.
6. The figure of the drawings to be published with the abstract is Figure No.	
X as suggested by the applicant. None	
because the applicant failed to suggest a figure.	e of the figures.
because this figure better characterizes the invention.	of the figures.

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 H01L51/40 H01L27/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) $IPC \cdot 7 \qquad H01L$

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, INSPEC, PAJ
